

ENSURES **ACCURATE** LOADING & SEALING

THE NEW **HPX-PT™** PRE-TORQUED HOLDER

HPX-PT™ pre-torqued holders incorporate high strength steel socket head cap screws to ensure accurate loading and sealing of the HPX® rupture disc.

The HPX-PT™ holder allows the disc to be correctly fitted in the workshop using precise recommended torque levels, prior to installation of the complete assembly between the flanges in the process system relief stream.

Don't risk your employees' lives, your property or the environment; contact your local Continental Disc representative today for the right safety solution!
